Dear Mr. Watkins:

Re: Release of Reclamation Sureties, Southwestern Portland Cement Company, Navajo Sandstone and Nielson Sandstone Quarries, M/023/010 and M/023/012, Juab County, Utah

Pursuant to our May 15, 1990 phone conversation, I am forwarding Southwestern Portland Cement Company's (SPCC) original surety bonds (#928-2088 and 702-5395) for the Navajo and Nielson Sandstone Quarries, which have been replaced by new reclamation surety bonds posted by Ash Grove Cement West, Incorporated. You requested that SPCC's bonds be released and sent to you as you are the designated insurance broker for Southwestern Cement Enterprises, Incorporated. You indicated that you would be notifying SPCC that we would forward the original surety bonds to your office.

Your request for release of the reclamation surety bond for the Leamington Cement Plant and Quarry should be directed through Mr. J. Kent Taylor of the Fishlake National Forest. The Forest Service holds the original bond for this operation.
